

Yellow Comet Tank instructions

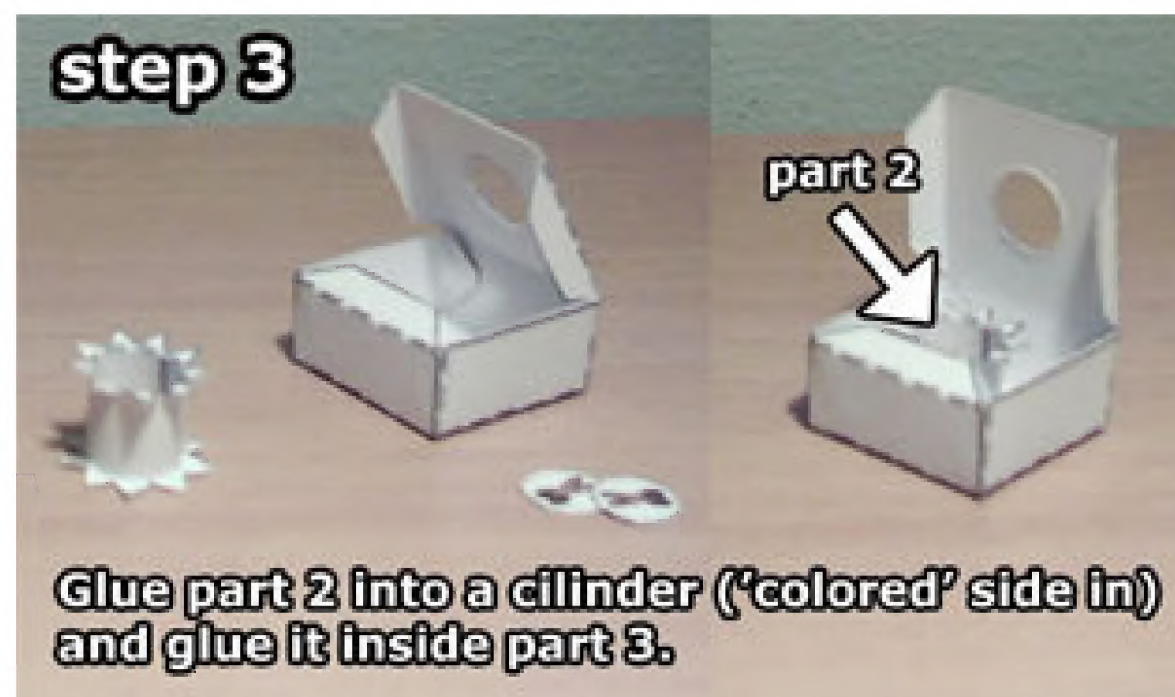

step 1

step 2

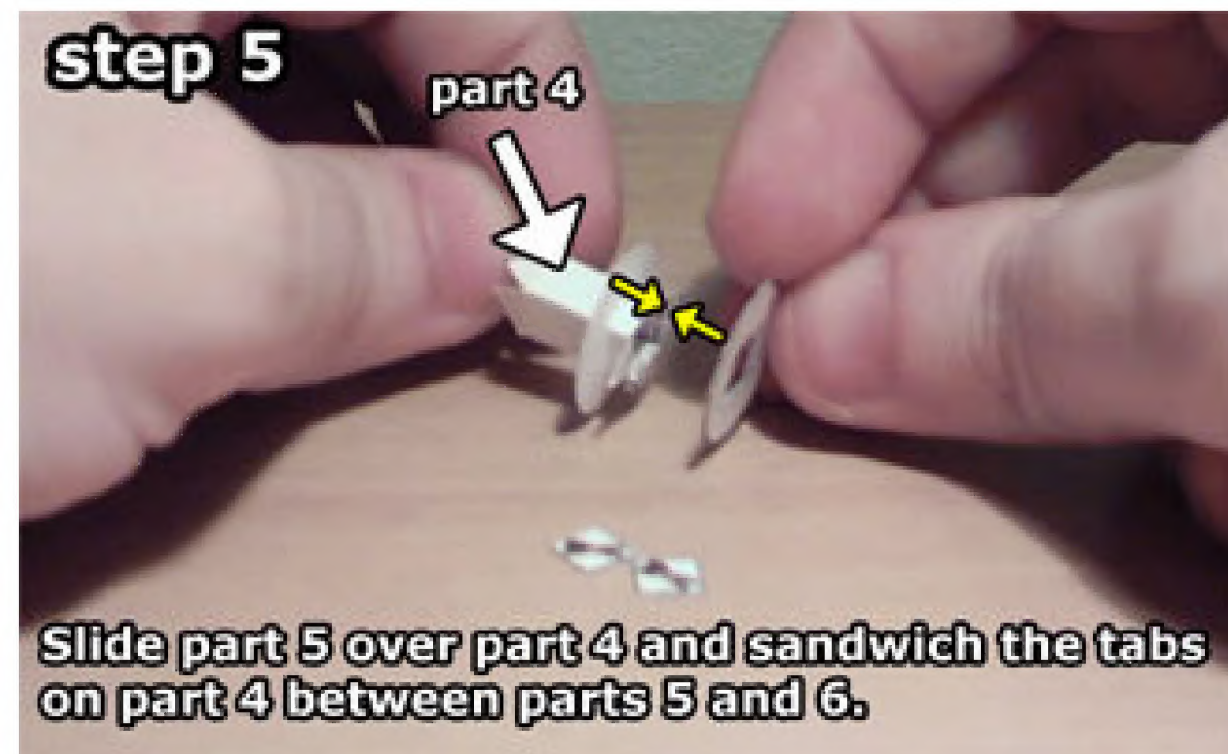

step 3

step 4

step 5

step 6

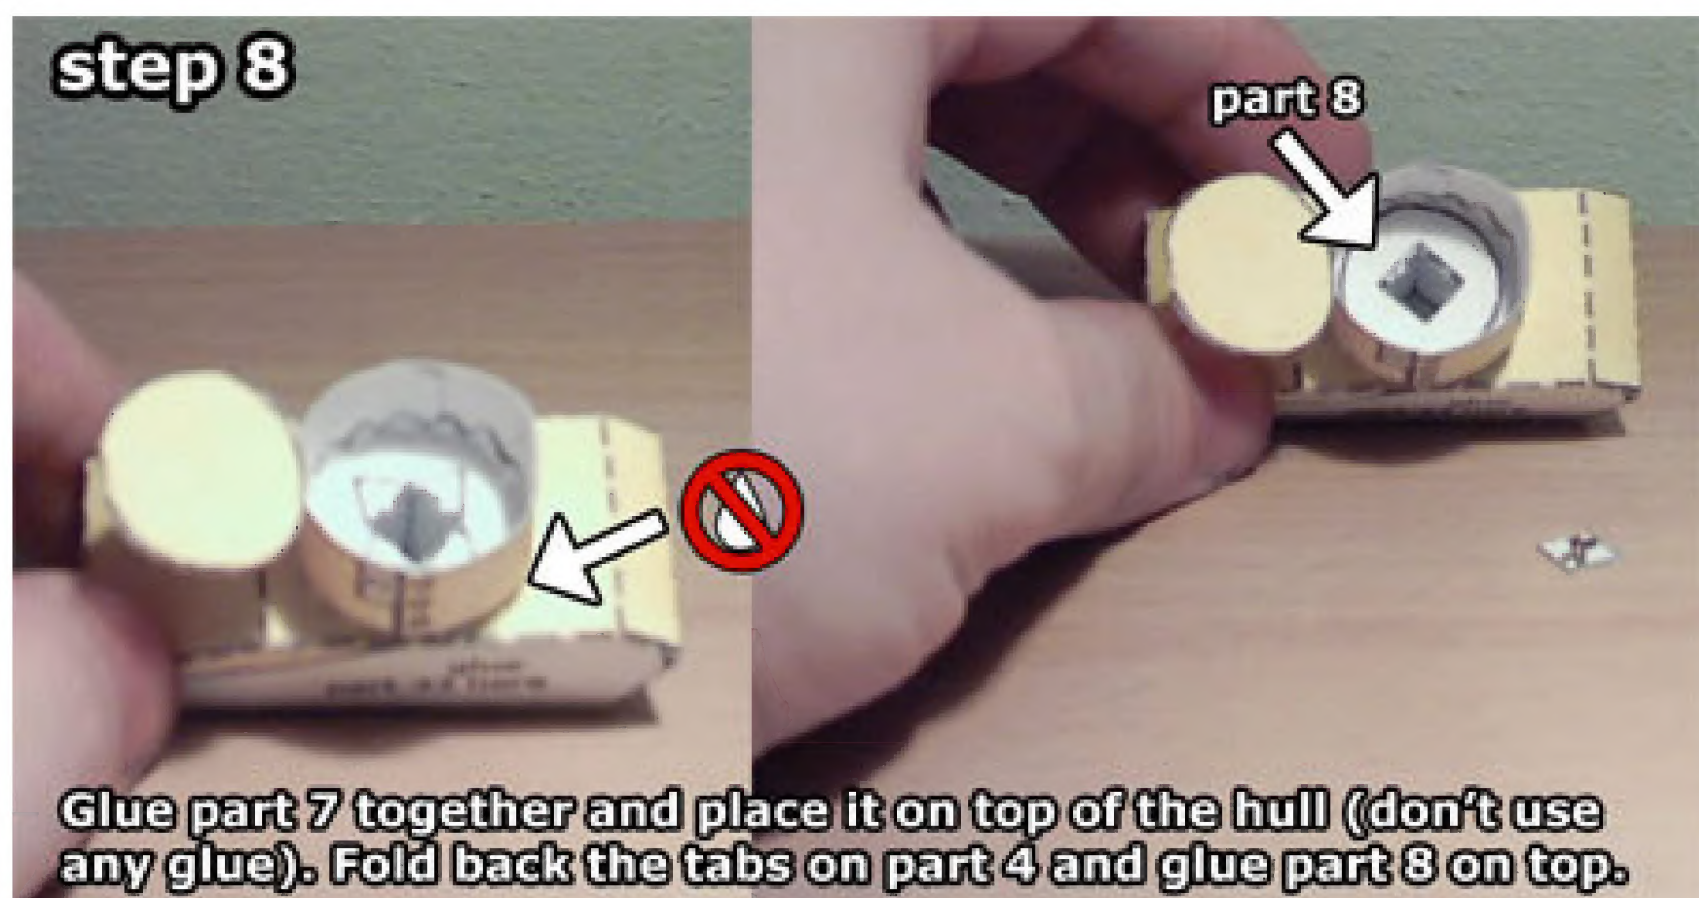

Push the assembled part through the holes.
Do not use any glue for this step!!

step 7

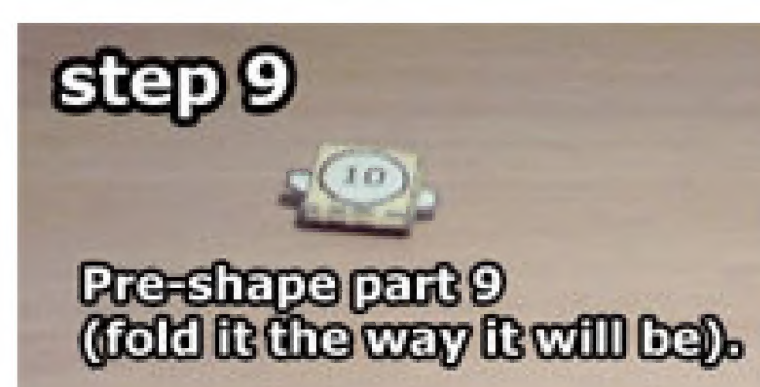

Cut out part 7
(don't forget the small slots).

step 8

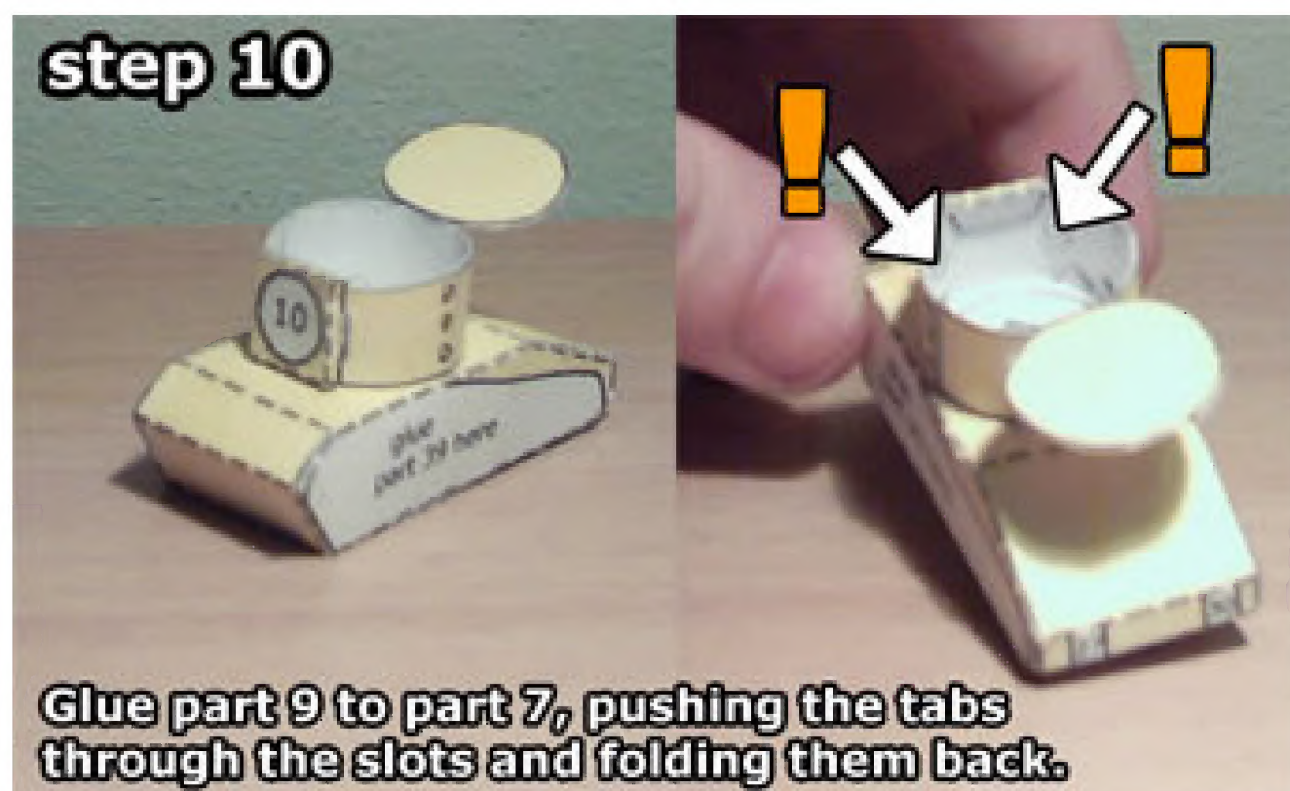

Glue part 7 together and place it on top of the hull (don't use any glue). Fold back the tabs on part 4 and glue part 8 on top.

step 9

Pre-shape part 9
(fold it the way it will be).

step 10

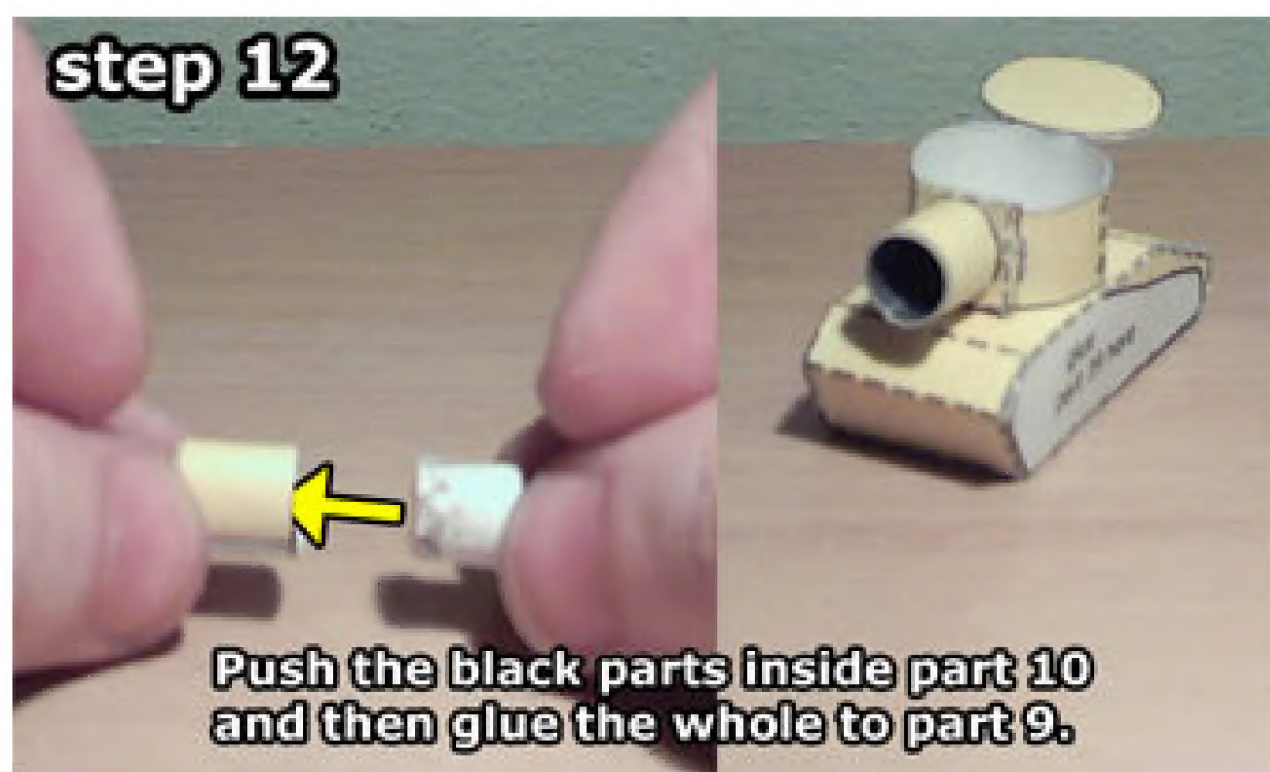

Glue part 9 to part 7, pushing the tabs through the slots and folding them back.

step 11

Assemble parts 10 through 12 as indicated.

step 12

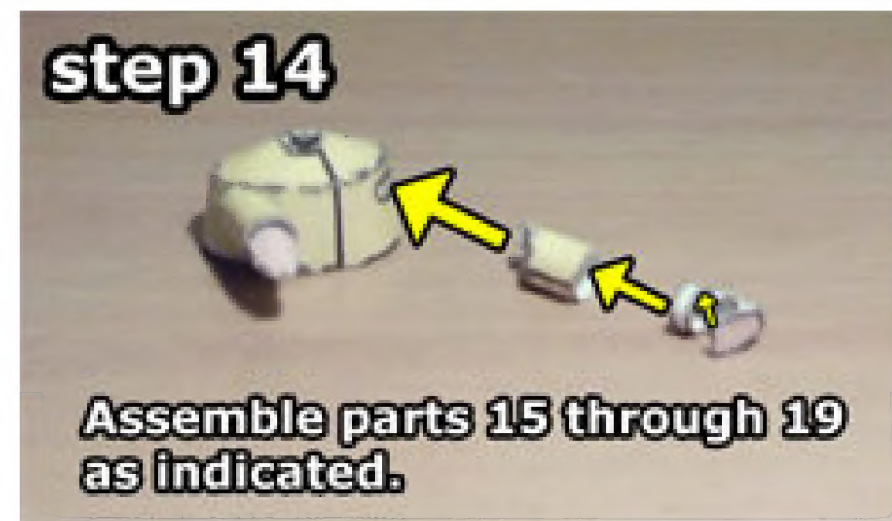

Push the black parts inside part 10
and then glue the whole to part 9.

step 13

Assemble parts 13 and 14 and glue the whole inside part 7, aligning it with the top edge.

step 14

Assemble parts 15 through 19 as indicated.

step 15

Glue together parts 20 through 22. Use a toothpick to curve the back of part 21 if you like.

step 16

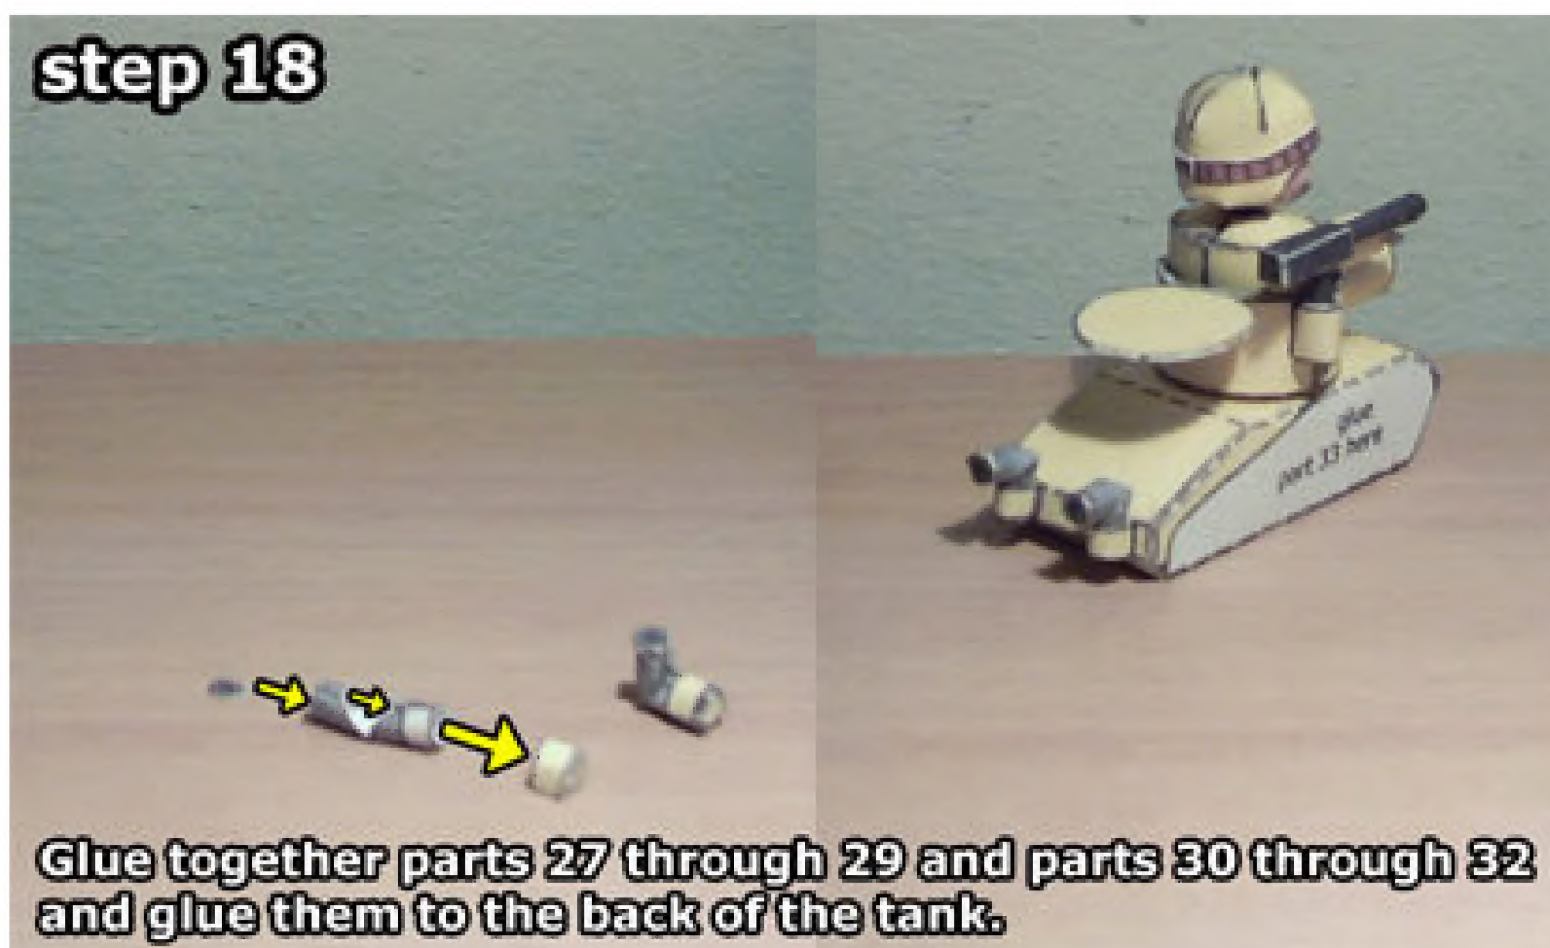

Put together all the parts and glue the YG trooper inside the turret.

step 17

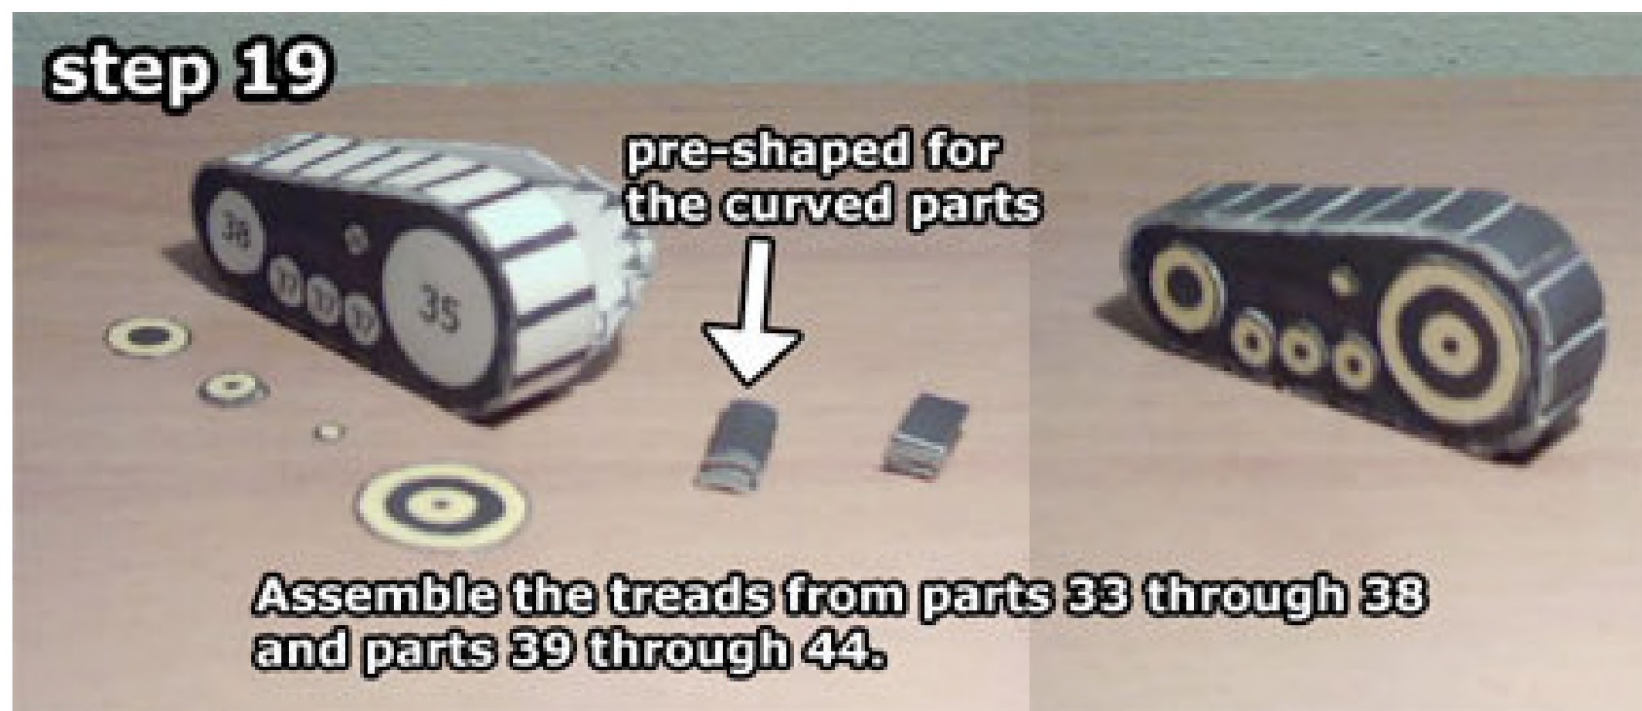

Roll up parts 25 and 26 as tight as possible and glue them together with parts 23 and 24. then glue the whole to the turret.

step 18

Glue together parts 27 through 29 and parts 30 through 32 and glue them to the back of the tank.

step 19

step 20
